Apologies:	Dustin Benton (DB), Green Alliance

Description
<p>The fifth Stakeholder Group meeting began with a welcome from the Chair, Trisha McAuley.</p> <p>The first topic for discussion was the Whole Energy System. Working within a number of smaller groups of mixed constituencies, the members raised challenges based on the engagement log and also considered points of consensus or divergent views within the mixed constituency groups. The Stakeholder Group then visited the Gas National Control Centre (GNCC) followed by a session focused on the recent Ofgem sector specific consultation publication.</p> <p>The Stakeholder Group also discussed the National Grid's January playback consultation and provided an assessment of the Gas Transmission Consumer Programme for RIIO 2 paper, providing challenge and feedback for areas of further focus.</p> <p>In the final session, Trisha gave an update on a number of recent meetings with the RIIO 2 challenge group, Ofgem and National Grid Gas board members.</p>
